TWO MILLION OF ACRES FARMING LANDS,

Is TRACTS OF FOUTY ACRES AND UPWARD.

ON LONG CREDITS

And St INTEREST.

These Lands were granted by the Government to aid in the construction of this Resirond, and include some of the richest and most fertile Prairies in the State, interspersod here and anost fertile Prairies in the State, interspersod here and anost fertile Prairies in the State, interspersod here and content with magnificent grovers the north-search to Caire at the Road extends from Chicago on the north-seat to Caire at the acouth, and from thence to Calena and Dauleith, in the north-west extreme of the State; and as all the lands lie within 6f form miles on each side of this Road, ready and cheap means are afforded by it for transporting the products of the lands to any of those points, and from thence to Eastern and Southern markets. Moreover, the rayid growth of flourishing towns and villages along the line, and the great increase in population by

marketa. Moreover, the rayid growth of flourishing towas and villages along the line, and the great increase in population by immigration, etc., siford a substantic and growing home demand for farm produce.

The soil is a dark, rich mold, from one to five feet in depth, is seatly solling, and peculiarly ditted for grating Garle and Sheep of the the cutivation of Wheat, Indian Gorn, etc.

Economy in cultivating and great productiveness are the well-known characteristics of Hilmosi lands. Trees are not required to be cut down, stumps grubbed or stone picked off, as is governily the case in cultivating new iand in the older States. The first crop of Indian Corn, planted on the newly-broken and usually repays the soit of plowing and fencing.

Wheat sown on the newly-turned sod is sure to yield vary large profits. A man with a plew and two yoks of oran will large profits. A man with a plew and two yoks of oran will large profits. A man with a plew and two yoks of oran will large profits. Payidicisus management the land may be plowed and teaced the first, and under a high state of cutivalent the second year.

Corn, Grain, Cattle, etc., will be forwarded at reasonable mate to Chicago for the Eastern market, and to Cairo for the state to Chicago for the Eastern market.

Southern. The larger yield on the chap lands of Hilmole over the high-priceol lands in the Eastern and Middin States is known to be much more than efficient to pay the difference of transportation to the Fastern market.

Bituminosus coal is mined at several points along the Road, and is a cheep and desirable foel. It can be delivered at newerly points along the Road and is a cheep and desirable foel. It can be delivered at newerly points along the Road and is a cheep and desirable foel. It can be delivered at newerly points along the Road and is a cheep and one of two behalf at the same rates per cord.

Those who think of actling in lows or Minnesets should bear and in the same resuarks hold good in relation to the rain of the produce of the same are ca

realor of Summor or the frost of Winter.

PRICE AND TERMS OF PAYMENT.

The price will vary from \$5 to \$25, according to location, quality, etc. Contracts for Deeds may be made during the year 1856, stipmisting the purchase money to be paid in five annual installments. The first to become due in two years from the date of contract, and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract.

case of the contract.

INTEREST WILL BE CHARGED AT ONLY THREE PER CENT,
PER ANEUM.

As a security to the performance of the contract, the first two
pears' interest must be paid in advance, and it must be understeod that at least one tenth of the land purchased shall yearly
be brought under cultivation. Longer credits, at 6 per cent por
anneum, may be negotiated by special application. Twenty per
cent from the credit price will be deducted for cash. The Compeny's construction bonds will be received as cash.

Bready framed Farm Buildings, which can be set up in a few
days, can be obtained from responsible persons.

They will be 12 feet by 20 feet, divided into one living and
three bed rooms, and will cost complete set up on ground chosen
strywhere along the Road, \$150 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate
rates. The Company will torward all the materials for such
buildings over their road promptly.

Special arrangements with dealers can be made to supply
those purchasing the Company's lands with fencing materials,
agricultural tools, and an outfit of provisions in any quantity, at
the lowest wholesale prices.

It is believed that the price, long credit, and low rate of interest, charged for those lands, will enable a man with a few
hundred dollars in cash and ordinary industry, to make himself
independent before all the purchase money becomes due. In
the mean time, the rapid settlement of the country will probably have increased their value four or five fold. When required
an experienced person will accompany applicants, to give information and sid in selecting lands.

Circulars, containing numerous instances of successful farming, signed by respectable and well-known farmers tiving in the
neighborhood of the Railroadiands throughout the State—also the
cos

NEW AND IMPORTANT INVENTION—
STARR, FELLOWS & Co.'s
NEW LAMP FOR BURNING FLUID.
PATENTED MARCH 15 1855.
In setting forth the merits of this Lamp, it is not necessary to disputage any of the numerous materials used and advertised for illuminating purposes. It is sufficient for our purpose to know this fact; that the great majority of people continue to return to and use BURNING FLUID, after having tried the various kinds of Coal Oil—sood evidence, we think, that it possesses many advantages over them alt. Some of these advantages may be thus stared:

1st. He universality of production. Good Burning Fluid may be procused everywhere.

2st. Its perfect cleanliness—which all will agree is a first class.

St. Its as entners and healthiness of odor.

3d. Its as entners and healthiness of odor.

4th. Its adaptation to portable as well as stationary lamps.

5th. It is not injured by age or change of climate.

6th. Its expense is below the average of other lighting mate

We offer to the public the most PERFECT BURNING FLUID LAMP yet produced, at once
SAFE, SIMPLE AND CONVENIENT.
It gives a cear, agreeable light, which may be increased or
diminished at will, and is admirably adapted for light in the
Parlor-and for Reading or Sewing is unequaled. We are selling them for Churches and Halls, daily.
